Made in Germany

OUR COMPANY

Quality products - made in Germany

At Schneider Medical GmbH, our core business is producing and selling gel and powder products for cold and warm application. In particular, this involves reusable compresses, one-time instant compresses, orthopedic bandages and bottle coolers for use in the fields of medicine, wellness, sport and the household. In addition, we operate our production in an environmentally friendly manner with our own large-surface photovoltaic system.

Schneider Medical GmbH is Headquartered in Rheinau a town in southwest Baden-Württemberg, Germany which belongs to the Eurodistrict Strasbourg-Ortenau. Situated in the northern Black Forest at the eastern edge of the Upper Rhine Valley. Approximately 11km from the Eurocity Strasbourg and 130km from the pharma capital Basel, Switzerland.

Versions

Our customers include major well-known, internationally operating medical product wholesalers as well as:

- ✓ pharmacies
- ✓ hospitals
- ✓ licensed physicians
- ✓ SMEs
- ✓ medical product retailers
- ✓ delivery services
- ✓ drug stores and health shops
- ✓ retirement and nursing homes
- ✓ physiotherapists
- ✓ transportation
- ✓ emergency services
- ✓ mobile care services

We are a family-managed firm that now has a fascinating 30-year history. What distinguishes our family? Our cohesion, values and traditions, but definitely our plans and visions as well. We are not solely a manufacturer and supplier, but a genuine partner. With a feeling of responsibility for long-term successful relationships.

The company sells products and services under its own brand names: Flexxum®, BodyPal®, Kuddler®, Seijos®, BottlePal® and CoolPack®. Furthermore, we produce numerous white label products under the manufacturer's brand for well-known internationally-operating wholesalers in the medical product sector.

REUSABLE COMPRESSES FOR WARM AND COLD TREATMENTS

Product description

Our vacuum-packed quality gel remains pliable down to -25°C – our special polymer film tolerates temperatures down to -50° C. The gel is available from us in glacier blue, transparent / colorless, or when bought in larger quantities, in the color of your choice. Our gel naturally also always remains pliable when deep frozen, down to -25°C.

Why Flexxum Gel Packs?

- Very reusable, lowest cost per treatment
- Wide range of sizes, tiny to large
- Flexible when frozen (-25°C), adapts to round body well
- Non Toxic
- Surround-seal technology for long lasting products tested up to 300kg pressure
- Easy cleaning and disinfection
- Air-free for efficient transfer of heat and cold to the body

BACK WARMER Art. Nr. 107-01

Product description

Our CoolPack® straps replace cold poultices, ice cubes and hard cold compresses. They can be easily attached to the body and remain cold for a long time, due to the external insulation.

Our CoolPack® straps help in the event of accidents, and immediately and effectively reduce inflammation and swelling. Our CoolPack® are available for legs, knees, elbows, back, stomach and wrist / ankle.

Our covers are made of stretch material, machine-washable, insulated against cold loss and additionally protect against direct skin contact with cold. All of our Velcro fastenings are length-adjustable and can be used hundreds of times.

Why Cool Pack?

- Cool against swelling and pain
- Warm for flexibility and against arthrosis
- Use for carpal tunnel syndrome & twisted ankle
- Available in 2 sizes (knee/ elbow & wrist/ ankle)

REUSABLE CHEST COMPRESSES

Product description

For rapid, simple heat or cold pain therapy and complaints in the chest after operations or after nursing.

Congestion, tense or sore breasts and incipient breast infections are the most common reasons why mothers stop breastfeeding. Our Seijos® chest pads relieve these symptoms by cooling or warming. Sensitive nipples remain free thanks to the opening. The warming application gently stimulates the natural flow of milk.

After surgery-Seijos® chest pads quickly relieves pain.

More comfort-Seijos® chest pads available with a soft protective cover.

Why Seijos?

- Perfect new mothers or after breast surgery
- Warm use for easier milk flow
- Cold use against swelling & pain
- Soft & light feeling
- Non toxic

Art. Nr. 027 BREAST PAD SEIJOS (OPEN) HOT/COLD, 6 compartments

Product description

Our elastic compression bandages are available for all standard application areas and as special major joint bandages. They are fast and easy to use, with the tried-and-tested Velcro-/adhesion system, strong and durable, washable and can be used as often as you want.

Our bandages can be washed at up to 40°C. The bandages are available in the popular colors white, beige, black, and other colors on request. All of our bandages are breathable and in addition keep the skin ideally dry by soaking up any sweat arising and releasing it outside.

Why Flexxum bandages?

- Easy to use – self adhering closure
- Used as support or orthopaedic bandage, rib belt to hold electrodes in place
- Strong elasticity – without latex rubber
- Highly reusable – no loss of elasticity
- Machine washable
- Many sizes and widths available
- Easy and quick use saves time & costs
